ARMY PROMOTION

Gen Terry to be Retired—His Probable Successor Struggle Among Various Aspirants.

WASHINGTON April 1 —The most important news of the week in army matters is the announcement of Maj Gen Alfred H Terry's contemplated retirement. There is no longer a reason to doubt that Gen Terry is a very sick man. Surgeons all agree that he had Bright's disease. The general himself has accepted the inevitable and informed the department that although benefited by his trip south he does not expect ever again to be able to perform active service.

The department being assured that he prefers retirement to further extension of sick leave, will comply with his request by ordering a retiring board at once for his examination. The detail has been made up and will be announced as soon as it is learned what date will be most convenient for Gen Terry to appear. The board will meet in Washington. It is understood that Maj Gen Schofield who is the only officer in the active lists except Gen Sheridan senior to Gen Terry, is to be president of the board. Two or three of the chiefs of staff of the bureau, probably Gens Benet and Macfeely and two surgeons of high rank now on duty in Washington, will make up the remainder of the board. As Gen Terry is expected north en route to his home, in New Haven Conn, in a few days, the examination may be looked for during the coming week and as there is a vacancy in the disability retired list, his retirement will no doubt immediately follow.

Then will come a lively skirmish among aspirants of high military honors. General Crook, according to large majority of army gossips, will no doubt succeed to the major generalship. He has many arguments in his favor. In the first place he stands well with the administration; he is next in line for promotion from a seniority standpoint, and has a brilliant army record.

General Miles as everybody knows is a most active candidate but he is a young man and can well afford to wait for promotion, while if General Crook should be overlooked his time he might not have a chance again for the advancement which he deserves.

The principal contest over vacancies created by General Terry's retirement will be about the brigadier generalship. A majority of forty colonels are, of course, ambitious to obtain the prize, and, as there are so many questions to be considered the president will not find it an easy task to make a selection from a minority standpoint.

Col Benjamin Grierson, of the Tenth cavalry has the advantage, but as the cavalry was only recently recognized by the appointment of General Merritt, each of the other two arms consider that it is now their turn. The seniority infantry colonel is Charles Smith of the Nineteenth, and senior of the artillery colonel is R. B. Ayres of the First. The latter will soon be in Washington to look after his interests. The fact that the artillery service has not been honored with a brigadier generalship for fifteen years or more encourages his friends to believe that he is the coming man.

Col John R Brooke, of the Third infantry is considered the strongest of the infantry candidates.

THE SITUATION

A Graver Aspect Assumed—The Belt Line—Meeting of the Employes—More Trouble Expected

CHICAGO April 1 —The prospect of an immediate tie up has added a graver aspect to the railroad situation this evening than at any time since the commencement of the Burlington strike. Every railroad entering Chicago depends almost wholly upon the Belt line as a means by which the interchange of freight is to be conducted with any other road. Practically every railroad track stretching from Chicago is intersected by the Belt.

Employes of the latter line have all along been among the staunchest allies of the Brotherhood while the management of the Belt Company has apparently sought as far as possible to maintain a position of so-called neutrality. A new face was put on affairs when, some time yesterday President Potter of the Eastern Illinois road which holds a controlling interest in the Belt line, sent a strongly worded letter to the management of the Belt line, demanding that it transfer cars for every railroad, and individual in same manner and that any and all employes who do not choose to do their duty be dismissed.

To-day a meeting of the Belt line employes was held at which the whole subject was earnestly debated. It was currently reported this evening that the Belt men had decided to stand by their guns and see whether the company would discharge them.

The Burlington road to-day did not attempt to do any switching in their freight yards. The St Paul people, however made the most strenuous efforts to keep things moving and as a result it is probable a strike on the St. Paul will culminate to-morrow in a renewal of the Panhandle strike.

A train was got in readiness so that to-morrow an attempt will be made to transfer St Paul freight to that road and as the Panhandle switchmen are pledged to support the St Paul men, trouble is expected. The St Paul road got out four freight trains and the suburban passenger service was in a much better shape than Saturday.

At a meeting of the St Paul strikers a majority of the engineers and firemen are said to have favored a return to work at the terms offered by General Manager Miller while switchmen and brakemen insisted on staying out. No conclusion was reached.

THE STRIKERS

Erroneous Report—Trouble Among the Men—An Engineer Severely Beaten

CHICAGO, April 1 —The reported ordering of a strike in Chicago on the Lake Shore Panhandle Alton and Santa Fe roads late Saturday night proves to have been erroneous. No such action was decided on. A meeting of the St Paul strikers was held at night, at which an answer is said to have been received from General Manager Miller to their propositions, saying they might return to work, if they chose, without handling "Q" freight if they would allow "Q" engines to come into the yards and do the work of switching. This was repudiated by the strikers and "No Q cars" was made the ultimatum. The meeting was very disorderly. A new feature was developed that bids fair to split up the engineers and firemen into two factions. The refusal of passenger crews to quit except on the Evanston line caused the trouble. Switch engineers accused passenger men of bad faith, and demand that they declare their intentions. A passenger engineer made a speech saying he would refuse to join the strike and that he spoke for a number of others. He was assaulted and received a severe beating before his friends could rescue him.

Another Meeting of Railroaders.

KANSAS CITY April 1 —Switch engineers and firemen of all roads entering the city except the Burlington held a meeting late last night at which they resolved that after 12 o'clock noon Monday they would refuse to handle any Burlington cars of freight except it be live stock or perishable freight which had been started previous to that hour. A committee called on the superintendent to-day and notified them of the order. If [illegible] engineers are put in yards to do switching or if [illegible] [illegible] are hired in their places the switchmen will refuse to work. Managers of the lines have not yet made known what they will do, but it is presumed they will attempt to handle the freight.

Still Another Demand

MILWAUKEE April 1 —Switchmen of the St Paul company in this city have formulated a demand to be presented [to] Roswell Miller that no Q freight shall be handled by the road under any circumstances. In the event that the demand is not complied with they will quit work at 1 o'clock to-morrow.

One More Strike

ST JOSEPH April 1 —All freight brakemen on the Kansas City St Joseph and Council Bluffs railroad struck to-day. They assign as a reason the danger of their lives in working with [illegible] engineers. This makes 600 strikers now in the city.

MOB OF COLORED PEOPLE

Row Resulting in the Death of Two Men—Troops Summoned to the Scene

KANSAS CITY April 1 —A Journal special from Leavenworth says

Last evening, as James King white and [illegible] man in the Leavenworth [illegible] was walking along the street he met Harrison Young, a [illegible] politician, Sam Hedspath and Ben Easton all colored. The three negroes were standing at a [illegible] where a year ago Hedspath had [illegible] [illegible] brutally beaten King. King was assaulted by Young and Hedspath who wanted to fight.

Hedspath drew a knife and sprang towards King, while Young put his hand in his pocket saying, "let's kill him." At this King drew a revolver and fired two shots at Young who dropped dead with a bullet through the forehead and a shot through the heart. King then turned on Hedspath and shot him in the right groin inflicting a fatal wound. He then shot Easton in the left thigh.

There had been bad feeling between the colored and white miners for some time, and the report that white miners had killed three colored miners created an intense excitement among the colored people, who compose a large portion of the population in that neighborhood.

In a few moments the colored people flocked to the scene from every direction carrying shotguns knives pistols and weapons of every description all clamoring for revenge. King at once started to run. The mob fired six shots at King who gamely turned and returned the fire. In a short time King, hard pressed by his wrathful pursuers turned and fled in the pump house of the water works. The negroes searched the place for an hour but could not find him.

While the excitement was at its height Mayor Neely appeared on the scene and attempted to order the crowd back. A dozen revolvers were pointed at him and Chief of Police Roberts met no better success. Mayor Neely made an unsuccessful effort at communicating with the sheriff or deputies by telephone, and finally mounting a horse started for Fort Leavenworth to get a force of soldiers.

In the meantime the entire police force of the city had arrived and aided in the search for King.

A squad of policemen finally found him crouching under an obscure stairway. They ordered him to surrender and he responded by answering out with a cocked revolver ready to shoot. [illegible] [illegible] then shot him the bullet entering the muscle of the arm just below the shoulder inflicting a painful wound.

While several policemen guarded the prisoner, others went outside and informed the excited crowd that King was dead having been shot by a policeman while resisting arrest. A cheer went up from the mob and in a short time nearly all left under the impression that King was dead. King was kept secreted in the building until a company of cavalry arrived from Fort Leavenworth when he was taken to the fort to prevent being lynched.

CHARGED WITH BIGAMY

A Minister Arrested Who it is Claimed Has Two Wives, and Now in Jail

ST ALBANS Vt April 1 —Last winter a Methodist clergyman went to the town of Georgia, near here and started a revival. Among the members of the flock was Emily H Post aged 31 years. Before long the minister applied to the town clerk for a marriage license. The document was issued, permitting the marriage of Rev Benjamin A Hill of Milton Vt., and Miss Post. The ceremony was performed by Rev A W Ford.

One man in town who did not succumb to Rev Mr Hill's preaching was curious to know something about the minister and wrote to Seattle Washington Territory, where Hill had formerly preached, asking about him. A reply came that Hill had a wife and five children in Seattle. This led to a further investigation and it is now stated that Attorney Hollinson has proof that Hill was married to Francis J Fervingring in the county of Eureka Nevada on May 22 1873 that the pair had lived at Eureka and San Francisco Cheballe mountain, and The Dalles, Oregon Seattle W T Yale, B C Redwood City Modesto, Ione Elko Pine Grove and Eldorado and that divorce proceedings have never been held.

The reverend gentleman was arrested, and held in $1000 bail for bigamy. As he could not give the bail he is now in jail. Hill says that his side has not been heard. He first claimed that he had been divorced but he now declines to say that or anything else about the case.

TEST CASE TO BE MADE.

An American Citizen Impressed Into the French Military Service

WASHINGTON, April 1 —It is probable that Secretary Bayard will make a test case of the right of a naturalized citizen of this country who was born in France to return to his native land without danger of being impressed into the military service of that country. John Feuchier a native of France was naturalized in Nevada in 1880. Lately he returned to the land of his birth and was arrested and enrolled in the Seventh regiment of infantry. He invoked the aid of the governor of Nevada to secure his release. His request was sent to the secretary of state, who instructed Minister McLane to demand his release. Minister McLane addressed the following note to Flourens the minister of foreign affairs

"Sir —My government having been informed that John Feuchier an American citizen residing in the state of Nevada has been arrested while traveling in France and incorporated in the French army, I am instructed to ask that your excellency will kindly take the necessary steps to liberate this American from the French military service. I avail etc ROBERT McLANE."

Flourens replied at once as follows

"Sir the minister of war to whom I hastened to transmit your request informs me that the interested party after having undergone punishment of eight days in prison to which he was condemned on the charge of disobedience to orders 14th of January last by a court martial of the Fifteenth army corps, has been in fact enrolled under our flag. Gen Ferran adds that the claim made in Feuchier's behalf raises the question of personal status which the administration is not competent to decide, and which the civil courts are alone in position to settle. This young man can therefore only be struck off our military rolls upon the production by him of a judgment issued by a French court of justice and recognizing in him the status of a foreigner.

Accept, etc, FLOURENS"

This is a polite denial of the request to release Feuchier. Minister McLane writes to Secretary Bayard and urges that the matter be pressed further upon the French government.

THE JULIA BOILER EXPLOSION.

What the Supervising Inspector Says Regarding the Coroner Jury's Verdict

WASHINGTON April 1 —The supervising inspector of steam boilers, an officer in the treasury department says he does not attach much importance to the reflections which the coroner's jury which inquired into the explosion of the boiler on the Julia, a Vallejo Cal. cast upon the United States inspector of steam boilers. Mr Hillman certified that the boilers of the Julia were condemned by the coroner's jury. The supervising inspector here however, states that coroners' juries are accustomed to censure the United States officers without justification. Whether this is the case or not, he would not say, but he did state that the department would take no notice of the jury's finding unless a formal complaint was lodged against Hillman and specific charges entered. He stated that Hillman had been censured for certifying to the capacity of the boiler of the Pilot which exploded at Sacramento but upon investigation by the department Hillman's official act in certifying as to the quality of the boiler was perfectly proper. The supervising inspector mentioned a number of instances within the last year or two, where government officers had been condemned by coroners' juries when afterward it was found that the officers had performed their duty in every respect.

International Council of Women

WASHINGTON, April 1 —The afternoon meeting of the International Council of Women was occupied with addresses by Matilda Joslyn Gage, Antoinette Brown Blackwell, Elizabeth Boynton, Isabelle Beecher Hooker, Frances Willard and others. The evening session was given up principally to foreign delegates who expressed their pleasure at the reception they had met with and faith in the good accomplished. Mrs Elizabeth Cady Stanton made the closing address. She said the council had been a success and had proved that women are ready for concerted action. She complimented the speakers and said she has always looked forward to the kingdom of heaven enfranchised and introducing herself to St Peter at the gate as a citizen of America. A letter was received this morning from a Russian nihilist which completes the countries sending greetings to the council. Letters [illegible] by different countries show universal interest in the council all over the world. She contrasted the [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] of forty years [illegible] [illegible] the reception of the present [illegible] [illegible] [illegible]. The result of the [illegible] [illegible]. She contrasted the queen of England's jubilee with this jubilee of women.

Mrs Stanton further said they asked the men to celebrate this woman's jubilee by placing in woman's hand the ballot. When a woman has to care to take part in the government it proves that she has a [illegible] ripened mind. Woman is hedged about with old prejudices and sustained in these prejudices [illegible] of common sense.

To-morrow at [illegible] the final meeting of delegates will be held at the Riggs house.

Gould Scores Bennett

NEW YORK April 1 Jay Gould addresses an open letter to James Gordon Bennett, concerning the prosecution of the Kansas Pacific criminal suits. He reiterates that the *Herald* tried to obtain lower cable rates than other papers paid, and claims that the *Herald* is actuated by personal malice and selfish motives. He declares he has known Bennett thirty years and that his private life has been a succession of debaucheries and scandals his name being associated on every tongue as Bennett the libertine. He cites several instances of Bennett's wild orgies concluding by saying that Sage and Gould simply did their duty as trustees.

A WHOLE CREW SMUGGLED

The Boarding House Men Persuade the Men to Desert the Vessel

SAN FRANCISCO April 1 —Much excitement was occasioned on the water front to-day when it was learned that the crew of the German ship Clara which arrived to-day from Liverpool, had been smuggled off the vessel by boarding house men. Scarcity of deepwater sailors was the direct occasion for the act. No less than a dozen deep water vessels are now lying in the stream waiting for crews. When the Clara arrived in the bay a large number of boats put out from the seawall and were taken on board vessel by the crew and before the captain knew their errand the boarding house men had so demoralized the men by promises of increased pay for immediate reshipment on other vessels that the men at once quitted the vessel. Before this and when the captain had learned their errand he ordered the runners off the ship, but they having the crew now under their bidding paid not the least heed to the captain's orders.

The captain then hoisted a police flag but before assistance came the crew with one or two exceptions had all left the vessel. It has been a common practice heretofore to induce sailors to leave their vessels upon docking but it is said the scene to-day has not been paralleled in this port in many years not since the days when shanghaing was done by water front boarding house men. The runners have been waiting for the Clara for ten days and every man they captured to-day is $50 in their pockets.

CALIFORNIA CROPS

Reports Received From Nearly Every County in the State

SAN FRANCISCO April 1 —The following reports have been received relative to the coming crops.

In San Luis Obispo it is estimated there are 111 300 acres planted in wheat this year. In 1887 the assessor reported 63000. The condition of the crop is estimated at 10 per cent above the average, or more than double the average yield per acre last year. The acreage sown to barley is estimated at 42 000 about the same as 1887. The indications are below the average yield.

In San Bernardino county near Los Angeles, but little wheat is grown, the principal cereal being barley of which this year 200,000 acres have been planted double the acreage of last year. At present the crop could not be more promising.

From the county assessor's books it is ascertained that there are 460,000 acres sown to wheat this over last year. Crops are in excellent condition year in San Joaquin Co an increase of over 30 000. An intelligent estimate of the yield would be fifteen bushels per acre. There is increased acreage in barley this year the estimate being 55,000 acres.

In Stanislaus county the best information places the acreage of wheat at 350 000 acres barley 51 000 and other cereals 20 000. At the present outlook grain stands fully as well as it did in 1882 at the same date that being the most prosperous grain year in the San Joaquin valley.

Merced county reports about 200,000 acres in wheat being 20 000 over 1887. Only an average crop is expected. Less barley and rye is in than last year.

The number of acres sown in wheat in Butte county is estimated at 180 000. The outlook for crops was never excelled. The yield in Butte county last year was about 40,000 tons of wheat but this year will reach 48 000 tons unless severe north winds greatly damage the crops.

Grain growing is of secondary consideration in Sacramento county. It is in her fine vineyards orchards and dairies that her great wealth lies. The 60,000 acres that are in wheat promise well.

San Diego county will treble her wheat crop of last year. The present condition of the crop could not be better and the yield as conceded by authorities will be twenty-eight or thirty bushels to the acre.

Estimates from Tulare county show that 600 000 acres will be in wheat. The increase is nearly 300 000 in two years. A conservative estimate of the wheat yield is 8 500 000 bushels. The acreage in barley has not increased to a similar extent. The present condition of the crop is good with the probability of a yield of 800 000 bushels.

Other counties throughout the state give detailed reports as to the probable yield which with very few exceptions, are of the most flattering nature. In some counties in the Southern and Middle parts of the state it is yet too early to state positively that the wheat yield will be unusually large. If, however as much rain falls from now on as falls usually about this time big crops are assured. Only a part of the acreage is under artificial irrigation. Taking all in all the wheat prospects for the coming season have never before been more flattering than at this time.

NEUSTADT SENTENCED.

Some of Judge Toohy's Remarks Made on That Occasion to the Prisoner.

SAN FRANCISCO April 1 —Worthy of publication is the full text that Judge Toohy delivered yesterday when he sentenced Walter Neustadt, who with Simon Hamberg and W J Pilcher swindled F M Parker of Josephine county Oregon out of his entire fortune by a half interest game and sale of property to which they had no title. After referring to Neustadt's testimony in which he perjured himself Judge Toohy said

"It only remains now for the court to pronounce judgment and before doing so occasion is taken to remark that our present code provides no adequate penalty for your crime. A common thief who takes a tenth part of the amount you have stolen from Mr Parker is punishable by ten years incarceration in the state prison yet larceny in general is accomplished without any of the manifold devices of rascality with which you so adroitly effected the plunder of Parker's $750. The means which you and your class of pretended real estate dealers employ to deceive, cheat, and entrap the unwary, are more nefarious than those of a burglar or footpad. Those miscreants possess a dash of intrepid daring but the crime of a swindler is too base to be called cowardly.

"The offense of which you are guilty ought to be declared a felony but since it is only a misdemeanor, your punishment cannot be made either sufficient or severe. The keenest sufferer in all this infamous work of yours is your pillaged dupe F M Parker. Through your operations, he and his family are left destitute and homeless while you have been squandering their hard-earned money in riotous living, and in the employment of distinguished counsel to make your defense. There is no compassion in your heart for this impoverished family nor have you at any time thought of the restitution of any part of your spoil to them. As well might a bleating lamb expect mercy from a wolf, as Parker to expect an honest or generous act from you. It is the judgment of the court and sentence of law that you be confined in the county jail for the period of one year and that, in addition you be fined $224. In default prisoner must serve one additional day for each dollar of the unpaid portion of fine."

TWO GOOD INDIANS

Reported Lynching of Two Reds Charged with Murder

HELENA M. T. April 1 —Word has been received here from Whitey Montana that at a camp some distance north of there on the [illegible] two Indians were arrested and placed in charge of a deputy sheriff. During the deputy's late absence they were taken from his guard by a party of fifty citizens and lynched. They were charged with helping to murder three prospectors on Wolf creek last June. Trouble is now feared with others of the same band and residents of the county are much excited.

Among the Theaters

SAN FRANCISCO April 1 At the Baldwin tomorrow night Annie Pixley begins the second week of her engagement in "The Deacon's Daughter." Miss Pixley is a very [illegible] actress but there seems to be too much uncertainty about the piece.

Interest in the coming educational convention is growing, and indications now favor the belief that the affair will in many respects be a more striking one than any previous national gathering held in this city.

Kicked and Killed

SAN FRANCISCO, April 1 —Peter Olson, a Scandinavian aged 63 years a stableman entered a stall to feed a vicious young horse Saturday evening. As he was backing out the animal kicked him one hoof striking him on the forehead. The other crushed in his chest. The unfortunate old man lingered in great agony until this morning when he died. He was married and leaves a family.

Footpads at Work

TEHAMA April 1 —Early this morning J. K. Nager a saloonkeeper was returning to his home, when he was halted by two highwaymen who fired three shots at him two balls passing through his hat. Nager grappled with them but two against one was too many. They beat him over the head with a sixshooter and robbed him of a silver watch and chain.

Senator Stanford's Denial

WASHINGTON April 1 —Senator Stanford said yesterday that there was no truth in the statement made in the New York papers by Mme. Diss Debar to the effect that he was willing to pay her a large sum of money if she would produce a spirit portrait for him. [illegible] [illegible] said [illegible] except that derived from the newspapers.

Sampled Easter Eggs

SAN FRANCISCO April 1 —A special from New York states that Senators Jones of Nevada, and Dolph of Oregon came over from Washington to sample Easter eggs.

Coming Week's Programme.

WASHINGTON April 1 —Although the committee on rules has mapped out a programme for the government of the house proceedings during the week its publication has given rise to so much dissatisfaction among many committees which have been left out of the arrangement it is extremely doubtful if it be adhered to. The appropriations committee has determined to press to passage the pension and district of Columbia appropriation bills and if these measures are called up they will practically consume the week. In the senate the Palmer bill, to create a bureau of animal industry and the Platt bill for the admission of South Dakota, is mentioned as possible subjects of attention during the week. Everything depends upon the action of the caucuses in regard to the motion now pending in the senate to recommit the bond bill, which is unfinished business.

Weather Crop Bulletin

WASHINGTON April 1 —The following is a synopsis of the weather crop bulletin for the week which ended Saturday. Reports from Michigan, Ohio, Indiana, New Jersey, North Carolina, Kentucky and Tennessee indicate that the weather of the past week has been favorable, although the season is reported as late and farm work is retarded. Reports from South Carolina, Alabama, Mississippi, Louisiana, Missouri, Illinois, Nebraska and Kansas indicate that the weather of the week was generally unfavorable for growing crops although favorable conditions are reported for the latter part of the week. Farm work in the Southern states has been greatly interfered with on account of heavy rains and in some localities high winds and local storms have injured crops.

Another Veto Probable

CHICAGO April 1 —A special from Washington says it was reported at the capitol yesterday that the president had given some members who called upon him to understand that he would veto the river and harbor bill; that he did not propose to sign a bill appropriating over $20,000 000 for this work, most of which will never be completed. There is a great deal of concern in congress over the probable fate of the bill. Democrats are urging upon the president the necessity of signing it as a political move.

Clearing House Returns.

BOSTON April 1 —Tables compiled from specials to the *Post* to the managers of leading clearing houses in the United States show the gross exchanges for the week which ended March 31 were $798 915 154 a decrease of 2.5 per cent. from a corresponding period last year.

The Oregonian.

PORTLAND, MONDAY, APRIL 2, 1888

IN THE SAME BOAT

In a broad sense the people of Oregon are in the same boat. Whatever helps the agricultural, commercial and mechanical interests of one section to a very large extent helps the whole state. What does help Oregon in the largest way? Why, immigration and the steady drift of capital to this state seeking investment in agriculture, commerce and manufactures. In this wide view whatever largely helps the prosperity and development of one section helps all sections. The only sound policy for Oregon is to pull together and stop this miserable provincial policy that would array one section against the other. This nourishment of sentimental grievances and jealousies of country against city, of East against West, of section against section only divides the strength of the state when it comes to meet in legislature and undertakes to legislate in a broad wise way for the welfare of the whole people.

This local and sectional jealousy is an easy and simple thing to stimulate and a difficult thing to extinguish. The food upon which every demagogue feeds and fats himself into the little Cæsar of his community is this local jealousy and sectional hostility of town against town, county against county, city against village and section against section. It is a very old and stupid trick but it is regularly practiced in every new state until it gathers wisdom with age. Whether Oregon grows steadily or halts in its onward march depends entirely on the breadth of its patriotism. The railroad policy is to encourage local jealousies and sectional hates because the railroad knows that if public sentiment can be divided the Oregon legislature will reach no agreement that will result in the enactment of any legislation looking forward to the enforcement of the rights of the people and the development of the best interests of the state against any paralyzing or scalping policy the railroads may see fit to adopt. For that reason the people of all sections of the state ought to pull together, remembering that in union there is strength, that division only means defeat; that so far as Portland is concerned nothing that seriously hurts or halts its growth will help any other section of the state; nothing that largely promotes the welfare and growth of Portland can fail to help every section of the state.

In a large sense the great natural water way of the Columbia is the very backbone of the state's body, and upon the most perfect utilization of the great river not only depends the prosperity of Portland, the development of the adjacent country, but the prosperity and growth of every section of the state. Portland pleads for no cause that is not the cause of the whole state, and if Portland develops, halts or decays it is quite certain that the rest of the state will be affected, because the great waterway upon whose perfect utilization Portland depends for refuge against an unfriendly and exacting railway policy washes with its tributaries the whole northern line of the state, and as a consequence all the rest of the state is in the same boat with Portland in its efforts to increase as fast as possible its independence of a narrow minded railway policy by making the utilization of the Columbia as a navigable stream as perfect as man can make it.

When this is done there is some refuge against a paralyzing policy on the part of the railroads, and when this is done the railroads per force will be compelled to become more reasonable in their actions and demands. It is not possible to separate the interests of Portland in this respect from the interests of Oregon as a whole, and for this reason it would seem to be the highest wisdom to discuss what is best for Oregon by looking through clearer glasses than the old brass mounted spectacles of sentimental local grievances, sectional jealousy and provincial prejudice. We are all in the same boat; we shall not soon make land if we do not all pull together and steer by the light of the same star for the same point.

SENATORS BY POPULAR ELECTION

The popular dissatisfaction with the United States senate is voiced by the proposition now before congress to have United States senators directly elected by the people as are the members of the lower house. The senate has ceased to be a conservative body. It voted for the inflation bill in 1874, but Grant vetoed it. It voted in 1882 for the demand of Dennis Kearney that treaty obligations must be repudiated in order to satisfy the cry "The Chinese Must Go," but President Arthur, who was a man of courage and conscience, vetoed that bill. The senate the other day passed the Blair bill to help educate the illiterates of states that are amply able to pay for their own schools if they will tax themselves in proportion as much as Oregon does for education, or even half as much as several of the smallest states of the Union north of Mason and Dixon's line.

The senate would pass a universal service pension bill to-morrow if any tremendous pressure was made for it. The senate has too many men like Stanford, who had the immoral impudence the other day to tell the Pacific railroad committee that the Central Pacific had morally if not legally discharged all its obligations to the government by finishing the road before the time agreed upon. The impudence becomes apparent when it is remembered that the race of the Central Pacific was not for the public weal at all but for [illegible].

The theory of changing the method of election from choice by the legislature to choice by the popular vote is that it would be less easy for a rich man to buy a seat if he had to distribute his cash to the people than it is when he has only to capture the majority of the party caucus in the legislature. Probably it would make little difference permanently, for it would only transfer corruption from the legislative caucus to the primaries and the nominating conventions. So long as the people are, when not corrupt, so apathetic and morally indifferent to the quality of the senate at present, they are not likely to make the senate better by popular election. England would be better off to-day if she had no house of lords, and the United States would not suffer if she had no senate, which has become packed with money bags, [illegible] railroad lawyers who furnish great corporations with a full kit of burglar tools that are necessary to rob the treasury and the public domain. Senator Stanford sits on the bench of the senate, one of the judges to try his own case, and he not only helps try his own case as a judge but casts his vote in its decision.

THE SALMON LAW

The fishing season on the lower Columbia opens to-day. It is understood that there has been an agreement among the fishermen to obey the law, which, although for many years on the statute books, has always until now been disregarded. This law prohibits the taking of salmon in the Columbia river or its tributaries during the months of March, August or September, as well as at the weekly close time in April, May, June and July; the weekly close time is between the hours of 6 P M of each Saturday and of 6 P M of the following Sunday. It also provides that gill nets must have meshes not less than 4¼ inches square; seine nets must have meshes not less than 3 inches square, and weir or fish traps must have their slats not nearer than 2¼ inches; the trap or weir shall have an opening at least one foot extending upward from the bottom towards the top of the weir or trap, for a distance of five feet, and the netting slats and other material used to close such aperture while fishing shall be taken out and carried upon shore and there remain during the months of March, August and September, and the weekly close times in the months of April, May, June and July.

The penal sections of the law provide that for any violation of the law the offender if convicted shall for the first offense be fined not less than $500 nor more than $1000, and for each and every subsequent offense upon conviction thereof shall be fined not less than $1000, and in addition to the fine the court may in its discretion sentence the person so convicted more than once to a term in the county jail for a time not exceeding one year. The law further provides that if any person makes a complaint against another for a violation of any of the provisions of this law, and the person complained of is convicted, the informer shall be entitled to one half of the fine recovered.

Any prosecuting attorney who shall fail to prosecute any person accused of the violation of the law when complaint is made to him shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in the sum of $500 for each and every offense. In addition to the fine inflicted, the party convicted will be required to pay the costs of the trial, and in default of paying the fine and costs, or securing the payment thereof, the person convicted shall be imprisoned one day in the county jail for every two dollars of the fine and costs. If the person convicted has any property subject to execution his property may be taken to pay such fine and costs. All fines and penalties collected under this law for its violation are to constitute a fund for the maintenance of hatching houses for the propagation of salmon.

Ever since the adoption of this law until recently it has been claimed that it was fatally defective and that it would not stand the test of adjudication. This theory, however, was completely exploded by a decision made in the state circuit court at Astoria on the 19th of last February by Judge Taylor, by which it was held as follows: (1) that there is no defect in the title of the law to destroy or limit its validity; (2) that the penalties are not excessive, considering the importance of the interests involved in the preservation of the salmon; (3) that the law, while in a sense local, is not within the prohibition of the constitution concerning "special" and "local" legislation; and (4) that the jurisdiction of the state courts extends to violations of the law committed in any part of the Columbia river. These several holdings cover all the points of objection to the law, disposing of them completely, leaving it as a whole and in its details in full force and authority.

Among recent deaths is that of ex-Gov John T Hoffman of New York, who expired at Wiesbaden, Germany, on the 24th ult. He was born at Sing Sing, February 10, 1828, and was educated at Union college, where he was highly distinguished, was admitted to the bar in 1849, when he was but 21. In 1860 he was elected recorder of New York city. As a magistrate he won golden opinions from men of all parties for his stern treatment of the draft rioters in 1863. He was next elected mayor of New York city. He was defeated for governor in 1866, but on his second nomination in 1868, was elected and re-elected in 1870. Up to this time he was regarded as the coming leader of the democracy, and the presidential nomination was easily within his grasp when, in 1871, came the Tweed ring exposures. Gov Hoffman's character for integrity was in no way affected by these exposures; no suspicion of dishonesty ever attached to his name, but Tammany Hall had backed him, and when Tammany Hall fell he fell with it. He had also become unpopular with a certain portion of the Irish democracy because he refused to pardon a ruffian, John Real, convicted of murder. Real had a large political following, but Hoffman resisted all appeals for mercy and Real was hung. Hoffman, to his undying honor, overruled the action of Mayor Hall, who refused to let the Orangemen parade July 12, 1871, and ordered out the militia to escort the parade. A riot ensued; the militia fired upon the mob and killed and wounded a number of persons. This action of Gov Hoffman excited the bitter hatred of the Tammany democracy and helped to destroy Hoffman's popularity. After the presidential election of 1872, Gov Hoffman retired from politics and went to Europe for two years. Since his return he has lived in retirement. He was a man of fine presence; his face was handsome, dark, intellectual, lit up by brilliant black eyes. He was a fine, elegant speaker, an able writer, a man of great strength of will and superior powers of leadership. He was a pure, proud spirited, high toned man, who lost the leadership of the New York democracy because he would not stoop to corrupt conduct to capture it. He was one of the warmest friends and admirers of Gen. Grant in the country, and was his constant companion in Paris when Grant visited that city.

John C Eno, who a few years ago robbed his rich old father and all his friends by a shameless embezzlement and theft of his financial trusts, and ran away to Canada, is reported as becoming quite a favorite in social circles at Ottawa. He recently dined with Sir Adolphe Caron, minister of militia, meeting several members of the cabinet, including the minister of justice. He soon returns to Quebec, where he is building a summer residence. There are, however, a large number of the best citizens of Quebec and Montreal who treat Eno's social advances with scorn and contempt. A few years ago Eno was invited to a grand public ball in Quebec, whereupon the great majority of the best English and Canadian residents gave the committee notice that if Eno was to be present they would be absent on the ground that he was nothing but a rich and well educated thief, who had run away to Canada to spend his swag and loot in safety; that a man who had become an exile from his father and his friends in order to escape Sing Sing for theft and forgery was not fit company for honest business men and honorable officers of the army.

So far as we can learn, Mr Hunt offers no assurance as to the future independence of his proposed railroad from Wallula via Eureka Flat to Walla Walla. The fact is that he cannot do it, and if he should build the road it will only be for the purpose of trading either the Northern Pacific or O R & N to take it from off his hands at a big price. This upon the presumption that he is doing the work for himself and not the mere agent of the Northern Pacific. Violent as this presumption is, it is apparently supported by the Walla Walla papers. If there have been any important subscriptions to the proposed subsidy the fact has been kept profoundly secret.

DR HARRISON'S LECTURE

Masonic hall was crowded to its utmost capacity last evening with men to listen to the talk of a young physician, Dr Harrison, of New York. The physician spoke for upwards of two hours, unassisted by notes of any kind. Dr Harrison is an earnest, forcible speaker, introduces apt witticisms and amusing experiences at appropriate points so that the attention of a large audience is maintained throughout. His language was chaste and refined and his entire discourse was scholarly and instructive. His delivery is effective and he speaks in a plain, agreeable and unpretending manner so that everybody can understand what he is talking about, medical terms and technicalities being discarded as far as possible. Many dangers that threaten the health of men and boys were pointed out and much valuable advice showing how they could be avoided was given. Dr Harrison was warmly applauded. He will deliver his last and most important lecture to men on Tuesday evening. Mrs Dr Potts lectures this afternoon and this evening will lecture on Food and Digestion, What to Eat and How to Eat It.

CLEMENCY FOR MRS BRYAN.

Governor Pennoyer Will Go to Salem To-Day and Issue Her Pardon.

Gov Pennoyer was busy writing in his private office when an OREGONIAN reporter called at his residence yesterday afternoon and sent up his card. This private office or "den," as the governor called it, is situated in the upper part of the house, and thither the reporter was conducted and invited to make himself at home.

Gov Pennoyer said he would go to Salem this morning and issue a pardon for Mrs. Rose Bryan, alias Pearl Page, convicted of robbing Dick [illegible] on the Alaskan. "I don't think that I ought to be blamed for doing so," he remarked, after making known his intention, "but I believe I ought to be hanged if I abate Harding's sentence in the least."

"Upon what ground do you grant the pardon?" the reporter asked.

"I took into consideration the first findings of the jury which convicted Mrs Bryan and then recommended her to the mercy of the court. The jury first returned a verdict of guilty, expressing the belief that at the time of the commission of the crime Mrs Bryan was under the influence of Harding. Under the statutes this is virtually an acquittal."

"But don't you think she deserved what she got?" ventured the reporter.

"No, no. I believe she was influenced by Harding. Very strong efforts have been made to secure a pardon for her, and petitions signed by well known and responsible citizens have been presented to me. I also received a very strong letter from ex-Gov Newell of Washington territory, who wrote without the knowledge of Mrs Bryan and without being requested by her friends. He is a physician, and he stated that last December he was called to attend Mrs Bryan, and he believed her mind was not exactly right. Altogether I thought it was a good case for the exercise of executive clemency. He further advised me that while governor of New Jersey he pardoned several, but remembered no instance which was so meritorious as this one. I also received a letter from a Salem man whom I don't know. He asked me to use the pardoning power, and, though he was willing that I should take all the responsibility in the matter, he was solicitous about keeping his name in the back ground. He signed his communication Democrat. I must hunt him up and get acquainted with him."

MRS BRYAN RECEIVES THE NEWS

Mrs Bryan was in her cell, with her mother, Mrs Baden, when the reporter called at the county jail after the interview with Gov Pennoyer. Hearing footsteps in the corridor she said to her mother, "there's some one coming," and hurried to the wicket to meet the visitor. She told the reporter that she had heard nothing definite from Gov Pennoyer, and when informed that she would be pardoned this morning she was overjoyed. "It is a very agreeable surprise, I assure you," she said smilingly. "I am glad to have the opportunity to return to San Francisco with my mother." Then she thanked the reporter and hurried back to the cell to tell her mother of her good fortune.

AT ST VINCENT'S.

Victims of Accidents Who Are Recovering from Their Injuries.

There are quite a large number of patients at St Vincent's hospital now, suffering from accidents, the majority of whom are making rapid progress toward recovery. James S Taylor of Winlock, who was caught between a passing car and the side of a building and rolled along till his ribs were fractured in many places and his body and hips dreadfully bruised, is doing as well as could be expected and is in a fair way to recover.

Larry Kelly, the opium smuggler, who was stabbed sometime since by John Darragh, is still confined to his bed. Kelly's wound was not supposed at the time to be serious, but it was afterward ascertained that the knife had penetrated his liver, and he is in luck to be alive. He is recovering and will soon be out, which Mr Darragh will doubtless be pleased to learn.

James Seymour, who while grading a road at Ordway's lumber camp was caught by a log which rolled down the hill and suffered a bad compound fracture of one leg, is improving. It happened fortunately that one of his fellow workmen had been in the hospital and had picked up some information concerning the proper treatment of such accidents. He made a fracture box for Seymour's leg and prevented it from being tightly bandaged, and ordered cold lotions to be applied during the trip here, so Seymour reached the hospital in as good condition as was possible, and although his case was considered serious he is now on the high road to recovery.

Willis Dunlway, who has been sick for some time with a severe attack of rheumatism, is at the hospital and is improving rapidly. His friends were unremitting in the care of him while he was unable to help himself, and as soon as he was able to be moved he insisted on going to the hospital. He is able to walk about and is regaining flesh, and is looking forward to getting back to Idaho, where he expects mountain air and wholesome exercise to completely restore his health.

Mr F Vigne Andrews was better yesterday than at any time since he was hurt, and looks hopefully forward to soon being able to be up and about.

SEVEN NEW DOCTORS

Commencement Exercises of the Medical Department of the University of Oregon

The first annual commencement of the medical department of the University of Oregon, consisting of literary exercises, interspersed with music, will take place at Turn hall this evening at 8 o'clock. The degree of Doctor of Medicine will be conferred on the following young men: H B Stanley, C P Thomas, H A Wright, H J Whitney, J Hunter Wells, Felix Callahan and A E Severance.

The following programme has been arranged for the occasion:

Piano duo, Tourists March, Sisson
Miss Fleidner and Miss Caukin
Prayer
Violin solo, Serenade, Bonawitz
Mr Gustav Miller
Annual address, Rev Warren H Landon
Song, Come Bells (Lucretia Borgia), Donizetti
Mrs W A Wetzell
Conferring degrees, Hon M P Deady, president board of regents
Piano solo, Carnival of Venice, Shulhoof
Miss May Cook
Charge to graduates, Dr S E Josephi, dean of the faculty
Song, Marguerite's Three Bouquets, Braga
Mrs Wetzell with violin obligato by Mr Miller
Valedictory, H J Whitney, M D
Benediction

After the exercises the faculty will give a dinner at Allsky's to the class and a number of invited guests.

Speaking about the college, which is now in its first year, Dr Josephi said: "The college has been very successful. We have had a larger number of students than we anticipated, and we have had success in every way. The college building is rather small and we expect to make some changes next year. Our clinics are superior to anything in that line in this city; we having the run of all the hospitals."

REPUBLICAN PRIMARY NOMINATIONS

At the call of Grant Republican Club a meeting of republicans was held Saturday evening in Arion hall. A large number was present. H H Northrup delivered a short address in favor of having nominations for the primaries made in open free and fair manner. Short addresses were also made by O F Mason, A E Borthwick, R T Chamberlin, A H Tanner, W G Steel, F V Drake, ex-Gov Woods, J H Mitchell, O Summers, J B Thompson and Munger. The meeting then nominated the following delegates to be voted for at the primaries:

NOTE FROM MR NORDEN.

TO THE EDITOR OF THE OREGONIAN

My attention has been called to the following contained in your issue of March 29th:

"It is understood that the delegates elected to the democratic state convention yesterday will choose B L Norden for member of the state central committee representing Multnomah county, and that Mr Norden will be made chairman of the county committee as well. It was on the whole a good day for Tom Real politics. As a disgruntled democrat put it, 'the terriers had it all their own way.'"

Since the issue of that date many papers have also referred to me as a candidate for chairman of the state central committee. As a large number of delegates to the state convention have read the above paragraph and may perhaps conclude that I may be such candidate, permit me, if you please, to deny that I am, ever was, or will be a candidate for that or any other position at the hands of the convention; and further, that if the position should be tendered me by an unanimous vote, my other duties are such as that I should be obliged to decline that high honor.

In passing allow me to say that at the hour of recess on the day of the county convention it was found that a ticket had been "cut and dried" by some reform statesman, upon which ticket not a solitary delegate was selected from East Portland, and believing that such unjust discrimination would result in much dissatisfaction, a number of delegates were called to meet at room 66 at the Gilman house, (during recess where the ticket (a majority of which was elected) was made with open doors and without any attempt at secrecy. For the truth of this statement I refer any democrat to the East Portland delegates to the state convention. "The terriers had it all their own way" only to this extent.

LOCAL NOTES

A R McAllen, known as "Big Nick," will have a hearing in the police court to-day for stealing a coat from T A Hollingsworth.

The Albina city council, at a meeting Friday evening, decided to improve Russell street from Williams avenue to Maragarette avenue.

The prohibition county convention will be held at Nonpareil hall, southwest corner of First and Madison streets, at 10 o'clock to-morrow morning.

A new black walnut pulpit has been added to Trinity Episcopal church. It bears a plate showing that it was dedicated to the memory of the late Dr R F Wilson.

The Redemption Hymn by J C D Parker to be given at the concert at Taylor Street church Tuesday night will alone be worth the price of admission—50 cents.

The Wessels Dramatic company will open to-morrow night at the New Park, in Michael Strogoff. The scenery has all arrived and been put in position. The sale of seats is very large.

The practical jokers seemed to have forgotten that yesterday was "all fool's day." Consequently there were no hats loaded with bricks and other contrivances for catching the unwary on the street.

During March there were twenty one fire alarms, eleven from the big bell, two stills and eight telephones. Total loss $1200. During the quarter ended Saturday there were forty nine alarms. Total loss by fire $23,987 65.

Capt Smith of the steamer N S Bentley has informed the steamboat inspectors that it is not yet decided whether to raise the sunken steamer or build a new one. The inspectors will investigate the matter in a few days.

The steamer Telephone No 2 is rapidly approaching completion and will soon be ready for launching. Her cabin and the shell and cabin officers' cabins above them are nearly finished, and the painters have already commenced work on them.

Rev Wm Morrison gave a very interesting address yesterday afternoon at the Young Men's Christian Association on The Life and Ministry of St Patrick. The lecture room was crowded. An after meeting was conducted by the general secretary.

A handsome gray mare which had strayed from home attempted to cross Morrison street bridge yesterday without paying toll and was caught in the act by Deputy Poundmaster Wilmer. The owner of the animal will know where to find her.

A force of Chinamen are at work ditching and clearing out the underbrush from a handsome grove on Mr B Goldsmith's property near Twenty Third and B street. This will make a very convenient and suitable place for picnics. The large field near by would be a good place for a baseball ground.

Cherry trees are blooming on every hand since the showers, and the gardens are beginning to make quite a showing. Japan quince and magnolia trees are in bloom. The boys are bringing in huge bouquets of wake robin, flowering currant and, in the park, violets and claytonias are to be found. A few warm bright days will make a great change in the appearance of nature.

PERSONAL.

Mr Geo W Weidler returned yesterday from a trip to California.

Mr C W Burrage has returned from Jackson county, where he has had the necessary work done on three iron mines to enable him to file application for patents to the land. He brought back some very fine specimens of iron ore.

Mr A D Charlton left yesterday for Los Angeles, where he will meet his mother, Mrs James Charlton, and his brother, Mr George J Charlton, and family, who with some friends are doing California in a special car. They will come to Portland for a short stay.

Chief Engineer W H Kennedy of the O R & N Company has gone East with the bids submitted for the construction of the three branches which the company propose to build soon, to submit them to General Manager W H Holcomb, whom he may meet returning from Omaha. Should he not he will go on to Omaha. There were quite a number of bids handed in.

ARBITRATION COMMITTEE.—At the regular meeting of Multnomah Typographical Union No. 58 yesterday, the constitution of the union was amended to create a committee on arbitration with a view to the closing of the breach now existing between the union and the Employing Printers' association. Capt. John O'Brien, George Hibbert and W. W. Copeland were elected to serve on the committee and their action in the settlement of difficulties shall be binding on all members of the union. Both sides have been very firm since the lockout last October and this is the first step taken in the direction of a settlement. The committee on arbitration is invested with power to establish such system as deems expedient for the settlement of difficulties between the employers and the union by a conference by the committee and the employers and if this fails by a committee or court of arbitration to be composed of the chairman of the committee on arbitration, the president of the Federated Trades Assembly or the president of the union, who shall confer with a like number of the employing printers at issue. Should a referee be necessary he shall be chosen by the representatives of the union and the employing printers. Should the deliberations result in a settlement of the difficulty that result shall have full force and effect and be binding on all the members of the union. No difficulty shall be referred to the committee on arbitration without the concurrence of four-fifths of the members present.

GOV. PENNOYER ON OPEN RIVER.—Governor Pennoyer, speaking to an OREGONIAN reporter yesterday, expressed the hope that the democratic state convention which meets in Pendleton this week would speak in unmistakable terms in regard to opening the Columbia river. He said that it ought to demand of Senator Dolph that he abandon the wasteful expenditure of money on coast fortifications for the reason that for the last half century there had been and henceforth there never would be any danger from foreign invasion, and that in lieu of the expenditure of $125,000,000 for such a useless purpose he should procure the expenditure instead of $10,000,000 to $12,000,000 for opening the Columbia river. He said that the danger of being despoiled by a foreign foe was purely imaginary while the fact that we were now being despoiled by domestic corporations was absolutely real. He also expressed the hope that the convention would declare in favor of a state portage road between The Dalles and Celilo, as a temporary measure of relief to be operated under such restrictions as would, while not unjust to other portions of the state, afford relief to Eastern Oregon.

PUSHING THE WORK.—The two bottom chords of the fixed span of the railroad bridge are in place and a force of twenty-five men was at work yesterday completing the work of riveting them. The iron for this span is all piled at the east end of the bridge and by means of the railway laid along the false work can be speedily moved to wherever it is wanted. The work will be pushed to completion as rapidly as possible. Mr. George S. Morrison, chief engineer of the bridge, who left New York four months since to make a pleasure trip around the world, is expected to arrive here from Yokohama about the 15th inst. The question as to whether ships can pass through the draw of this bridge may be considered settled, as quite a number have already gone through without any difficulty, there being at the present time five fine large ships lying above the bridge.

SEWERS UNDER CONSTRUCTION.—The system of sewers for the southern part of the city, planned some time since by the councilmen from the Third ward and the superintendent of streets, is well under way, and will be pushed rapidly to completion. The Lincoln street sewer is completed from Hood to Second and the Sherman street sewer is finished to Third. The stakes are set for the brick culvert in Marquam's gulch and work will be commenced at once. The excavation for the wooden culvert from the end of the brick one to the river is about completed. The stakes are set for the large cement pipe sewer along Hood street into which the sewers of Lincoln, Grant, Sherman and Caruthers are to empty, and the work of excavating will be commenced at once. When these improvements are completed this will be one of the best sewered sections of the city.

FAIR GROUNDS BONDED.—A bond for a deed wherein Amos N. King agrees to transfer to George B. Markle, jr., as trustee of the Industrial Fair association, the property selected as a site for the fair buildings near the intersection of Fourteenth and B streets, was filed in the county clerk's office Saturday. The conditions are that within ninety days the association shall have a majority of its stock subscribed and complete organization; that within ninety days thereafter it shall designate such amount of the land referred to that it needs, but such parcel must not be less than three blocks. Thereupon Mr. King will make a deed to the association which will lie in escrow in the Commercial National bank until the association erects a building on the land for fair purposes and pays Mr. King $8000 in cash, or one half cash and the remainder in fully paid up stock.

BELONGS TO THE CHURCH MILITANT.—George Winters, who belongs to the Salvation Army at Salem, was fined $5 and costs amounting to $11.30 for cuffing Guy Hirsch, son of the ex-state treasurer, who had "guyed" him, and the [illegible] Journal took occasion to denounce the assault as unwarranted and unprovoked. Saturday evening Winters met W. H. Parry, manager of the Journal, and attacked him, pulling off his spectacles and rendering the journalist, who is near sighted, almost hors du combat. The men clinched and went down together and were exchanging the compliments of the season when separated. Parry was scratched somewhat and his finger was badly bitten. Both were arrested and released on their own recognizances. Winters was evidently cut out for a soldier, but has got into the wrong army.

WOULD GO FISHING.—Quite a number of fishermen were out yesterday. A reporter met two last evening who had quite a nice lot of trout each. They had left here Saturday and gone twenty-five miles into the country over roads where for miles the mud was more than a foot deep, and had fished in the pouring rain of yesterday forenoon. One of them said it was worth $100 to make such a trip, so his trout cost him about $4 each. Two others were seen who went out to Johnson's creek and got a thorough wetting and enough trout to swear by. The boss party of four who took the train Saturday evening and had a team meet them at Forest Grove to take them ten miles up Gale's creek to camp, will not be home till some time this afternoon. It is expected that they will have some thrilling adventures to relate.

SHIPPING SUGAR EAST.—Within the past two weeks over 600 tons of San Francisco sugar has been brought here by the O. R. & N. steamer and shipped to St. Paul, Minneapolis and Chicago via the Northern Pacific. In the same time nearly 400 tons of sugar has passed through Tacoma bound for the same points. It is a departure from the usual order of things for sugar to be shipped from the Pacific coast to Chicago, though for a number of years small shipments have been made to Omaha. Claus Spreckels, the California sugar king, recently told a Portlander who was in San Francisco that he had obtained favorable rates for shipments East. This explains the matter.

NARROW GAUGE DEPOT.—The work of driving the piling for the fourth section of the narrow gauge depot at the corner of Jefferson and Water streets is proceeding rapidly. Already a portion of the piles have been cut off to the proper height, and the heavy timber caps placed in position and a large quantity of planks for the joists is on the ground. The piles for the upper wharf, which is to cover the wharf partially built by the city, will be driven at once, and the place will soon begin to look like the terminus of a railway. Work will soon be begun on the roadway from the present terminus at the foot of Jefferson street to the new depot.

BOOM COLLAPSING.—An Eastern capitalist who has been visiting Southern California is in the city on his way home. He says the boom still continues at Los Angeles, but at San Diego it is beginning to collapse. Many who have bought lots and [illegible] payment will not make a second. He [illegible] a great [illegible] in the sales of [illegible] there in the near future and says that [illegible] lumberman who has [illegible] there [illegible] if they get out with no loss. In [illegible] orders from the [illegible] a loss of trade with Southern California will be seriously felt by our lumber manufacturers.

REAL ESTATE STATISTICS.—Real estate continues to move in a steady [illegible]. During March [illegible] deeds amounting to $[illegible] were filed with the county clerk as compared with [illegible] filed amounting to $[illegible] for March 1887, and 149 deeds and $134,144 for the corresponding period two years ago. During the first quarter of this year 413 deeds amounting to $1,149,707 were filed as compared with 428 deeds and $1,118,666 for the same time last year and 311 deeds and $403,[illegible] for the first three months of 1886.

STORY OF A PIN.—Last Monday night Mrs. J. W. Smith was seized with a violent fit of coughing which ended in her expectorating a full sized pin, says the Albina Courier. The pin had been swallowed by Mrs. Smith when a little girl of 6 years, and for thirteen years had lain embedded in her right lung. Various physicians who had examined her expressed an opinion that her lungs were affected, but that there was something about it they could not understand, and advised a change of climate. Since the ejection of the pin Mrs. Smith is rapidly improving and will doubtless soon recover.

ADVERTISING PORTLAND.—At a meeting of citizens held at the West Shore office on Saturday last, Messrs. H. W. Corbett, Donald Macleay, W. K. Smith, Ellis G. Hughes and L. L. Hawkins were appointed to act as an advisory committee to Mr. L. Samuel's scheme to advertise the city of Portland [illegible]. A meeting of the committee will be held at the Ainsworth National bank [illegible] when the appointment of an Eastern representative will be made, who will leave the city [illegible] next. The boom campaign is actually opened.

EASTER OBSERVANCES.—Easter Sunday was appropriately observed. Nearly every church had special services. At the Catholic cathedral Archbishop Gross celebrated pontifical high mass and wore for the first time the beautiful magna cappa presented him by the Catholic ladies on the occasion of his silver jubilee. Rev. Father Fierens delivered a sermon on the resurrection of Christ, at the conclusion of which Archbishop Gross thanked the congregation for their devotion during the Lenten season.

HAD NO HIGH PRIEST.—Last week one of the Chinese lepers at the county poor farm died and Supt. McBride furnished the surviving members of the colony a coffin in which to bury their comrade. He did this because he had been informed that it was the custom of the Chinese not to bury their dead unless a high priest is in attendance. A high priest could not be obtained and the other Chinese refused to bury the body. Finally the burial service was done by white men and all is quiet on the farm.

ONLY $2000 TO RAISE.—A stockholder of the Portland Cable Railway company told an OREGONIAN reporter, yesterday, that $148,000 of the capital stock has been subscribed, leaving but $2000 to be raised, and this amount will be secured in a few days. This afternoon, at 1:30, the stockholders will meet in the Ainsworth bank, reorganize and elect new officers or re-elect the present ones. Work on the road will be resumed the latter part of this week. The iron is already distributed on the hill.

HISTORY OF EARLY INDIAN WARS.—An officer of the society of veterans asks us to say that they have changed their plan concerning the proposed history of our early Indian wars. The work will be done jointly with the work of Mr. Ashley Bancroft, under the general authority of the society. The principal work of writing will be done probably by Mr. Elwood Evans. A prospectus of the history will soon be given to the public.

KATHLEEN MAVOURNEEN.—At the Standard theater, Vancouver, W. T., will be presented this evening by home dramatic talent equal to any company that ever played to a Vancouver audience, "Kathleen Mavourneen," a domestic Irish drama in four acts, for the benefit of Ellsworth post Women's Relief Corps, G. A. R. The object is a worthy one and the entertainment will doubtless be largely attended.

HEAVY DAMAGES CLAIMED.—G. Brandes & Co. have commenced suit in the state circuit court against the Northern Pacific Express Company for the recovery of $785. Plaintiffs allege that last December the defendant corporation neglected to deliver three sacks of oysters sent them, whereby they were damaged to the amount sued for.

ILLUSTRATIONS OF PORTLAND.—The May number of the West Shore, now in press, will contain the largest number of illustrations of the city of Portland that have ever been published in any one number of any publication. A large view of the entire city, executed in colors, will accompany the number as a special supplement.

MR. COURSEN'S FOURTH SUBSCRIPTION CONCERT takes place at Masonic hall next Wednesday, April 4. Mr. N. E. Skinner, tenor, and Master Alfred Holt, violinist, will appear for the first time before Mr. Coursen's audience. No single tickets can be sold.

CITY TREASURER.—Mr. H. W. Monnastes, city treasurer, has removed to the office formerly occupied by Mr. McKercher, No. 105 First street.

OREGON AT WASHINGTON.

Eagerness of the Administration to Conciliate this State.

Our Indian War Claim—Two Fat Offices—With a General Review of Matters of Interest Here.

[Special Correspondence of The Oregonian.]

WASHINGTON, March 26.—Politically Oregon is to the average administration man growing in importance. The plain evidence is that every nerve is to be strained to capture the state in the coming election. In the departments the chief bureau officials are prompt in doing anything for Oregon that its representatives may suggest. New postoffices are established, new postal routes designated, and claims are put through that otherwise would be subject to delay. Not only is all this attention shown the state, but shrewd politicians are even discussing the advisability of taking the democratic candidate for the vice-presidency from the Pacific coast. The name of Gov. Pennoyer is suggested. He carried the state the last time he ran, and it is argued that he can do the same again. Even Senator Gorman talks about Oregon. Not long ago a report was in circulation that the Maryland boss contemplated sending Denis Kearney there to do what he could in the way of bringing Oregon into the democratic fold. Then followed a report that Gorman denied ever making use of such material as Denis Kearney in running a campaign. This reflection naturally made Denis feel badly, and as he has been in the city for a few weeks past he has made it his business to hunt out Gorman to see what he meant by such statements. Gorman now comes to the front with a denial that he ever said anything which could in the least reflect upon the Sand Lots orator, and thus the matter stands.

WASHINGTON TERRITORY AND THE PANHANDLE.

Since my last letter, the house committee on territories has recorded its protest against any division of the territory of Idaho, in order to enlarge Washington territory, and admitting the latter as a state. The committee in its report states that "as an evidence of the existing feeling at the present time, it may be stated that there is one newspaper in Kootenai county and one in Idaho county, each of which opposes the dismemberment of the territory. In Shoshone county there are four, three of which are opposed thereto. In Nez Perces there are four, three of which are in favor of this bill and one against it. During the past few years over a thousand miles of railroad have been built in the territory, and it is now possible to get from any part of the four counties referred to to Boise in from thirty to thirty-six hours, and as cheaply as to get to the capital of Washington territory."

The bill which Senator Stewart reported in the senate, on the admission of Washington territory, provides that no part of Idaho shall be annexed to form a part of the new state unless the people of the Panhandle themselves are willing to favor the project.

FOR THE OREGON MILITIA.

Gen. Cutcheon has reported favorably from the military committee Representative Hermann's bill to provide arms, ammunition and equipage to the state of Oregon for the militia thereof. The provisions of this bill have already been given in these columns. In its report the committee says: "We find the organization of the militia in said state to number at present three regiments, with one unattached battery of light infantry and one troop of cavalry, and these are in urgent need of arms and equipments by reason of the inadequate supply due the state through its regular annual quota, it having but one representative in this house, while its population, it is estimated, has more than doubled since the last apportionment. This state contains within its limits five Indian reservations, aggregating within them about 4000 Indians, in various portions of the state, and that in the whole state—as large in area as New York and Pennsylvania combined—there is but one United States military post, and it with only one company of infantry, and that along its 300 mil[illegible] miles of unguarded sea coast, as well as frontier, there are many exposed localities, which may at any time experience the necessity of home defense."

THE CLAIM OF L. A. DAVIS.

Senator Mitchell has reported from the committee on postoffices and postroads with a recommendation that it pass the bill to refer to the court of claims for adjudication the petition and papers of L. A. Davis, of Chehalis, Washington territory, in which he claims the sum of $14,844 for services in carrying the English mails both ways between Olympia and Monticello, in Washington territory, from about August 1, 1868, to June 30, 1870. It is alleged in behalf of the claimant that on or about the 1st day of August, 1868, the mails for the British colonies and England, being through locked mails, and known as the English mails, began to be forwarded from Olympia to Monticello, and return in their passage from Portland, state of Oregon, to Victoria, British Columbia, and return. That it was necessary to greatly increase the number of horses, vehicles and drivers on said route, and to go to additional expense for the purpose of carrying said English mails over said route.

The committee is of the opinion that the claimant is entitled to a reasonable allowance over and above that received on his contract for carrying said English mail on said route during said term, but are unwilling to fix the amount and make a direct appropriation.

DISTRICT ATTORNEYS AND MARSHALS.

In compliance with a resolution of the house the secretary of the treasury has sent a statement of the compensation and fees earned by the several district attorneys and of the United States courts in every part of the country. From this report it appears that from January 1 to June 30, 1885, the gross emoluments of the district attorney for Oregon amounted to $3238, for which $285 13 for office expenses must be deducted, and for the next six months of the same year the sums were respectively $3280 and $205 52. For the first half of 1886, after deducting $261 75 for office expenses, the net income of the district attorny amounted to $2,221 63. For the last half of the same year the sum was $3,486 25. During the whole of 1887 the net income was $5,807 60. The net income of the marshal of Oregon for 1885 was $8,530 23; for 1886 it was $7,554 41; and for the first half of 1887, the last six months not having been reported upon as yet, the net compensation was $2,356 55. For Washington territory the net compensation of the district attorney for 1885 was $3,526 41; for 1886 it was $4,469 44, and for 1887, $4,206 60. The net compensation of the marshal for the same territory was in 1885 $7,130 02; in 1886, $6,915 85; and in 1887 $5,642 45. The compensation allowed an assistant district attorney in Washington territory amounted to $142 in 1885; $535 40 in 1886; and $892 40 in 1887.

MEASURES REPORTED AND PASSED.

The senate committee on printing has reported favorably on the proposition to print the report of the army engineers on the subject of the salmon fisheries on the Columbia river.

The senate has passed the bill for the relief of William J. Martin to refer to the court of claims his claim for $7520 alleged to be due and owing to him under his contract for beef cattle, made with Lieut. G. W. Hawkins, in June 1849, and for the delivery of beef cattle under such contract for the use of the army.

The senate has reported adversely the bill to grant the Boise Basin Bedrock Flume Company the right of way to construct a bedrock flume in Idaho. The bill was therefore indefinitely postponed.

The senate has passed the following bills of interest in Oregon: To construct a new public building at Salem at a cost not to exceed $75,000; to provide for the issue of patents to certain persons for donation claims under the donation law; granting to the Newport and King's Valley Railroad Company the right of way through the Siletz Indian reservation; to grant the state of Oregon townships 27, 28, 29, 30 and 31 south, in ranges 5 and 6 east of the Willamette meridian, for a public park; to pay Thomas Guinean, of Oregon, the assignee of Bradley S. Hoyt, deceased, of California, $160 paid by the government to said Hoyt on account of land entry at Shasta, California, and which entry was subsequently canceled; to create ports of entry at Tacoma and Seattle, Washington territory; and providing for the forfeiture in certain cases of wagon road grants in the state of Oregon.

A bill to establish a life-saving station at Yaquina bay has been considered and will be urged in the senate by the committee on commerce.

The bill for the relief of Newton McCoy, of Oregon, has been reported upon favorably by the house committee on claims. The claimant charges that the government owes him $560 for his services as attorney and counsel in some thirty cases of fraudulent timber land entries. Owing to irregularities in the making and approving of his contract by the district attorney the same was rejected by the attorney general.

Fire in the "Tribune" Building.

NEW YORK, April 1.—The fire in the *Tribune* building this morning was confined to the city editor's department in the ninth story, and was extinguished. The damage was only about $2000. The cause of the fire is supposed to be combustion of an oiled rag near the hot stove pipes in a room belonging to Homer Lee, in the bank note company's floor below.

Can't Get Fair Play.

LONDON, April 1.—Phillips and Barnitt, the American sporting men, sailed on the steamship Etruria on Saturday for New York. They declare it impossible for an American pugilist to win in Europe. They maintain that Heenan, Kilrain and Sullivan all really won, notwithstanding the fact that draws were declared.

Fires and Floods.

VIENNA, April 1.—Several more villages in Hungary have been flooded and the inhabitants are starving. At Hettihart's 120 houses have been burned and 700 people rendered homeless. Two lives were lost in the flames. The villages of Mezo-Barey and Hund dora have also been destroyed by fire.

British Bark Wrecked.

LONDON, April 1.—The bark British Princess has been wrecked off Caminha, Portugal. Twenty-three persons were drowned. It is reported that the Spanish customs officers prevented the saving of lives by firing upon a Portugese life boat which had gone to the rescue.

Statement Denied.

PARIS, April 1.—President Carnot denies the truth of the statement that he quarreled with Boulanger when they were in office together, because the general refused to shoot down Decazeville miners during the riots there.

Prince Bismarck's Birthday.

BERLIN, April 1.—To-day was the seventy-third anniversary of Prince Bismarck's birth. Congratulatory telegrams and notes and gifts of flowers poured into the palace the whole day.

Jem Wants to Fight.

LONDON, April 1.—Jem Mace, believing he can defeat Mitchell in a glove contest, has issued a challenge. Mr. Ball, of Winslow, backs him.

Resignation Tendered.

BUCHAREST, April 1.—Premier Bretano has tendered his resignation. Prince Ghika has been summoned to form a cabinet.

Arctic Explorer Dead.

BERLIN, April 1.—Dr. W. Bessel, the Arctic explorer, is dead.

LANE COUNTY NOTES.

EUGENE CITY, March 30.

The way the stocks of spring goods are rolling in, our merchants must be anticipating heavy business in the near future.

The fruit trees, especially cherries and plums, are in bloom, and there never were finer prospects in Oregon than the present outlook indicates for Eugene and vicinity.

Mr. P. K. Watters of Shelby, Iowa, arrived in our city a few days since. He has purchased a large farm about eight miles out, and will engage in raising fine stock, especially cattle.

Tax payers are growling over the heavy levy. Lane county pays 17 mills, which is more than she has been accustomed to do, although it is from three to five mills lower than her neighbors.

Hon. A. G. Hovey contemplates building the nicest banking house in the city in the early part of the present season. It is hoped he will, as permanent improvements of that kind are desirable additions to our city.

The republican county convention for nominating candidates for the various offices within the gift of the people, meets on Saturday, April 14. The democrats meet the day previous to name favorites for the same places.

Immigrants are arriving daily and our real estate agents are apparently [illegible] business with them. [illegible] expected within a [illegible] Eastern points [illegible] ine the [illegible] over and examine this county.

[illegible] wheat in Lane county looks fine. It was not injured in the least by the cold weather last winter, and the season has been unusually fine for sowing spring grain; hence if we have a continuation of favorable weather we shall be able to show up unusually good crops.

It is stated that St. John, he of prohibitory fame, will visit Eugene about the 11th prox. It is expected that the third party, by the manipulations of a few democrats, will put a full ticket into the field, and do everything in their power to defeat the republicans, but we venture a guess that they will get left.

Our board of trade are arranging for advertising the resources of Lane county in the Eastern states by printed pamphlets and circulars and we think that through this medium and the circulars of our real estate agencies, we will certainly become known pretty widely. A number of new buildings are already contracted for the ensuing season, and there will be as great an amount of improvement this year as in any of the last five.

YAMHILL NOTES.

LAFAYETTE, March 29.

Mrs. Gen. Palmer of Dayton is quite sick.

The north end of the county was visited with a heavy rain yesterday.

The annual fine stallion show will take place at McMinnville April 17.

The county court has advertised for plans and specifications for a courthouse and jail to be built at McMinnville, cost not to exceed $45,000, to be considered April 17.

CIRCUIT COURT NOTES.

Circuit court has been in session here this week. The attendance is not large, and the docket small, but will probably extend into next week with some of the criminal trials. One of the most interesting cases has been that of J. F. Bewley against T. N. Graves, supervisor of Sheridan road district, for opening a road between Bewley and Chapman upon an order from the county court. Bewley was awarded $150 damages. The case is to be appealed.

Indictments have been found by the grand jury as follows: Against J. W. Howard and Frank Allen, for burglarizing Redmond's store at McMinnville; Wm. H. Hess, adultery; J. A. O'Dell and Jack Cooper, for larceny.

Judge Boise is presiding, but is quite feeble from his recent illness. His wife is here with him.

Our local attorneys are all present. The Portland attorneys are George H. Durham, H. Y. Thompson, A. L. Frazier, J. W. Whalley, Samuel Stott, M. W. Smith, W. S. Hume, Sidney Dell, and E. C. Woodcock of Eugene City and George W. Belt and G. G. Bingham of Salem.

The trial of Odell has been continued until next term and his bond fixed at $500, which will probably be furnished by to-morrow.

The report of the grand jury causes a smile wherein they "find the courthouse and jail in good condition and repairs." They recommend that the sheriff be furnished with a safe. They also find the records and files of the several county officers neatly and orderly kept, and the county officials prompt and efficient in the discharge of their duties.

Mail Service in the South.

Savannah (Dem.) News.

It is very sad to have to confess the fact, but every day is making it more apparent that the republican administration of the postoffice department in this part of the country was much better than what our friends, the democrats, are giving us.

By no Means Backward.

SALT LAKE, March 31.—Gov. West left for Washington to-day, to urge upon congress the necessity of making an appropriation of $500,000 for government buildings in this city.

Ringing in His Ears—Deafness Cured in Fifteen Minutes.

Editor Oregonian: I came to Dr. Darrin March 8, 1888, for deafness and ringing noises in my ears. With an Electro-Magnetic treatment of twenty minutes I could hear as well as ever in my life. I wish you would publish this, and refer any one to me at Monument, Grant county, Or., as I consider the cure a wonderful result of a new treatment for deafness.

In Constant Pain Four Weeks, and How it was Cured.

Mr. Editor: For some time I have been sorely afflicted with Rheumatism in my limb. After unsuccessful trials for cure I came to Dr. Darrin, and with his medicinal and electrical treatment I am restored. For four weeks I could not sleep, only at short intervals. Can be referred to on Fourth street, between Hooker and Porter streets, South Portland.

D. L. FURGUSON.

Office Hours and Place of Business.

The doctors can be consulted at 235 Fifth St., cor. Main, Portland, from 10 to 4 daily; evenings, [illegible] to 12. The doctors have a branch office at the International hotel, Cherry street, Seattle, W. T., where any in that vicinity can consult them.

REPUBLICAN COUNTY CONVENTION.

A Republican Convention for Multnomah County is hereby called to meet at the Court House in the City of Portland, on Saturday, April 7, 1888, at 10 o'clock A. M., for the purpose of nominating a full legislative and county ticket, to be voted for at the ensuing June election, the selecting of thirty delegates to attend the Republican State Convention to be held April 11, 1888, and the transacting of such other business as may properly come before it.

The committee find it necessary, in order to make a fair apportionment of delegates, based upon the vote cast at the last general election, to have the primary meetings held in the various precincts and polling places in the county, as established at the last election, without reference to any change since made therein by the county court.

For the purpose of electing the delegates primary meetings will be held in the various precincts in the cities of Portland, East Portland, Albina and Sellwood, between the hours of 4 o'clock and 7 o'clock P. M., and in all other precincts at 1 o'clock P. M. on Wednesday, the 4th day of April, 1888.

The convention will consist of seventy-one delegates, apportioned as follows:

LOST MANHOOD, Nervous and Physical Debility, Exhausted Vitality, Seminal Weakness, Spermatorrhœa, Impotency, Gonorrhœa, Gleet, Syphilis, Premature Decline, WEAKNESS IN WOMEN, and all Functional Derangements that result from youthful follies or excess in after years.

URINARY Kidney and Bladder Troubles, Weak Back, Gonorrhœa, Gleet, Cystitis, Varicocele, Stricture, etc., promptly and safely cured. No nauseous medicines given, nor strong injections used, which cause stricture. Charges reasonable.

NERVOUS Debility, Loss of Vigor, Seminal Losses, Night Emissions, Despondency, etc., cured.

YOUNG MEN suffering from the effects of youthful follies or indiscretion, should avail themselves of our treatment, the greatest boon ever laid at the altar of suffering humanity. Will guarantee a positive cure in every case.

MIDDLE-AGED MEN There are many troubled with too frequent evacuation of the bladder, accompanied by a smarting or burning sensation; on examination, the urine deposits a sediment, and sometimes albumen is present. The color varies from a bright or reddish to even a milky hue, the patient experiences a weakening of the system in a manner he cannot account for. This is the second stage of seminal weakness. Many die of this difficulty, ignorant of its cause. A perfect cure and healthy restoration guaranteed. Office hours: 10 A. M. to 5 P. M. and 7 to 8 P. M.

N. B.—Persons unable to visit us may be treated at their homes, by correspondence. Medicines and instructions sent by mail or express. Consultation free.
